

# CREATING DATABASE ACCOUNTS

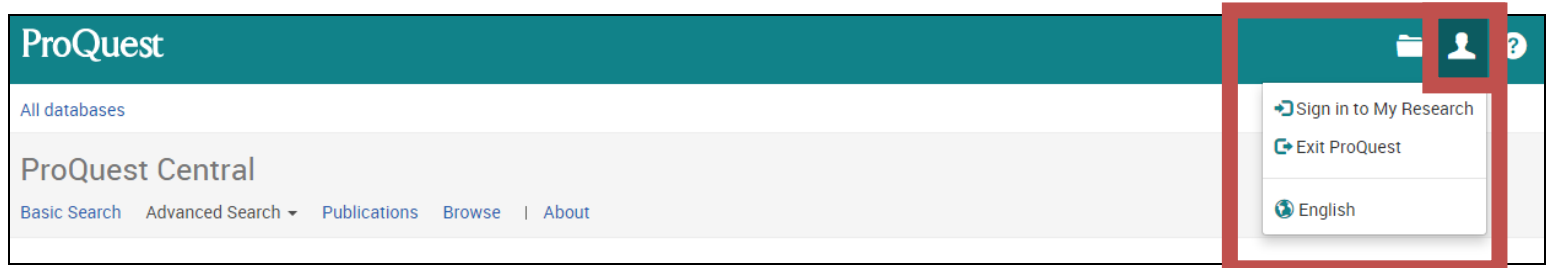

Ask a Librarian at <http://lib.nova.edu/ask>

Create personal database accounts to save documents, save searches, organize research, share research, and create alerts and RSS feeds based on your searches.

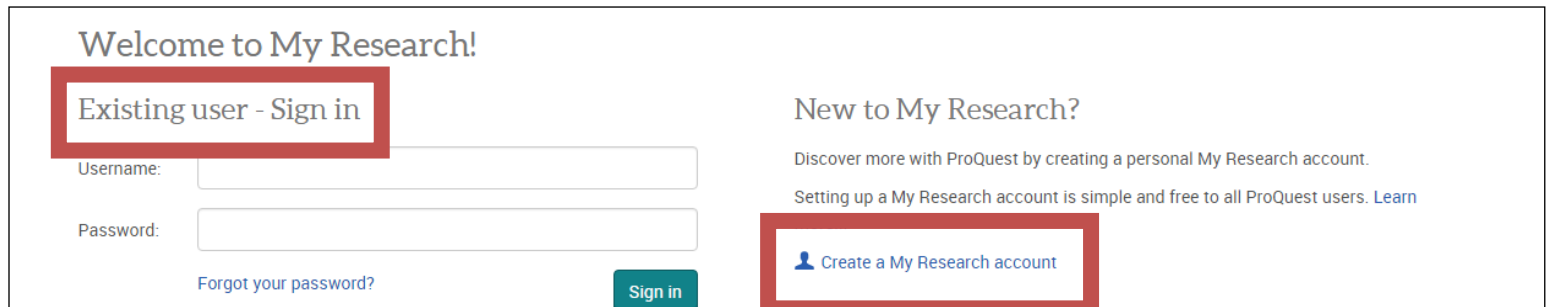

## IN PROQUEST DATABASES

ProQuest databases include ABI/INFORM Complete, ERIC, ProQuest Central, and PsycInfo, and others in a variety of disciplines.

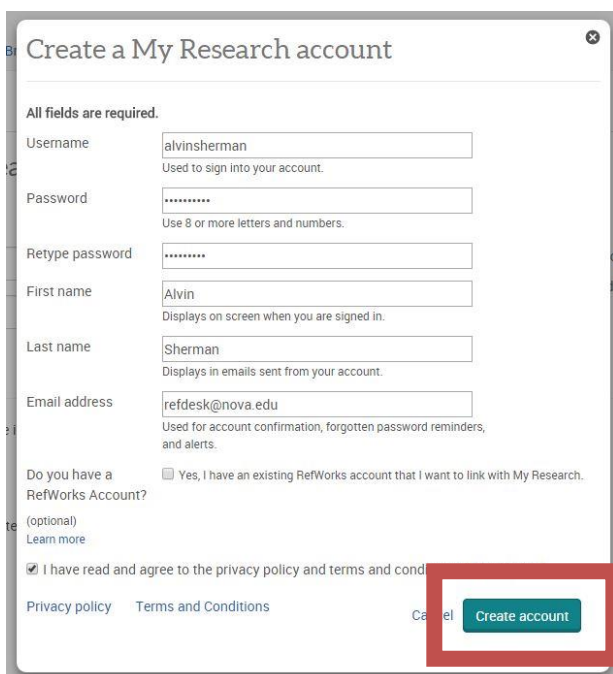

1. From any ProQuest database, click on the “My Research” icon in the upper right hand corner.

2. Use the “Create a My Research account” link to create a new account. As you can see, this is also where you will return to login to your account.

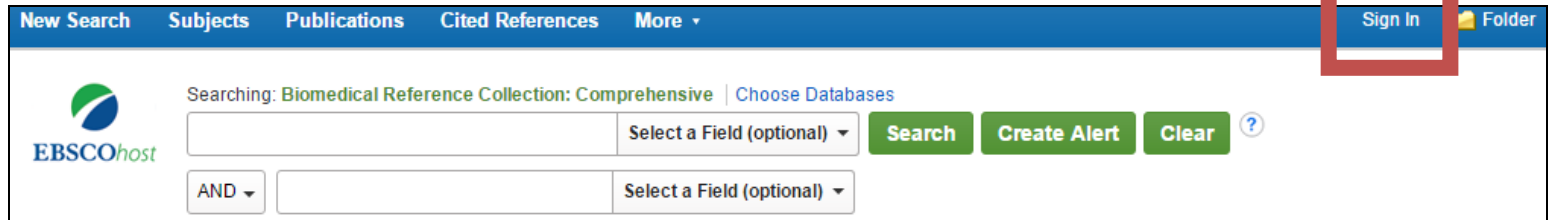

3. Complete the required fields to create your account.

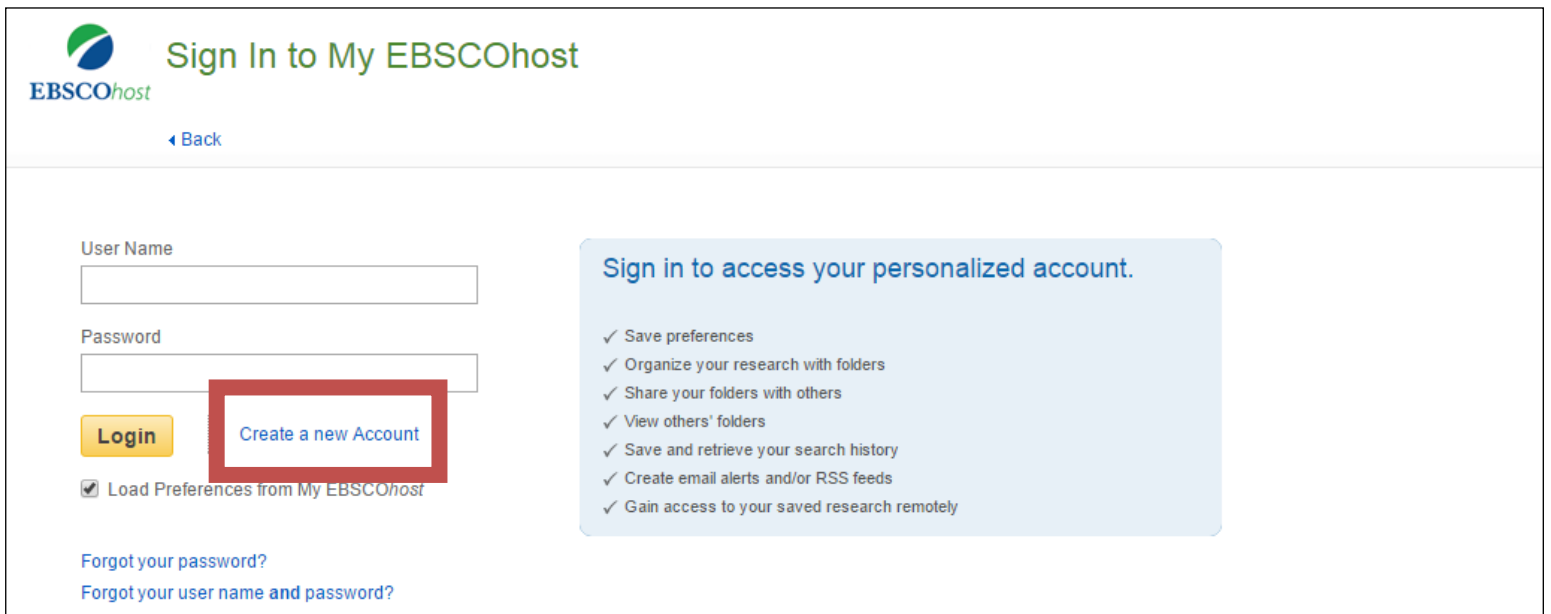

## In EBSCO Databases

EBSCO databases include Biomedical Reference Collection, Education Source, Waters & Oceans Worldwide, and others in a variety of disciplines.

1. From any EBSCO database, click on the “Sign In” link towards the right side of the header.

2. Use the “Create a new Account” link to create your account. As you can see, this is also where you will return to login to your account.

3. Complete the required fields to create your account.
